## Introduction

Current state and federal regulatory approaches require development and implementation of concurrent law enforcement strategies. Concerns over ocean ecosystems, living marine resources, coral reefs, coastal habitat conservation, and international fisheries have escalated law enforcement responsibilities throughout the Gulf of Mexico. The foundations of fishery management plans are dependent upon sound regulations and the ability to maintain acceptable levels of compliance. The role of law enforcement in the fishery management process is to provide guidance to ensure effectiveness, consistency, and enforceability of proposed and adopted regulations.

Understanding the complexities of fisheries management regulations by the public and user groups requires enhanced interaction and communication by enforcement. Effective education and outreach programs by enforcement will increase public trust and awareness maximizing voluntary compliance and identifying illegal activity.

This long-term *Gulf of Mexico Cooperative Law Enforcement Strategic Plan* maximizes the effectiveness of interjurisdictional and international fisheries enforcement. This is accomplished by identifying priorities, developing comprehensive planning efforts, and conducting Gulf-wide operations.

## **Vision Statement**

*Improve regulations and increase compliance through cooperative law enforcement efforts which enhance, protect, and conserve ocean ecosystems and living marine resources throughout the Gulf of Mexico for the safe use and enjoyment of present and future generations.*

## **Mission Statement**

*Law enforcement is dedicated to providing professional guidance and expertise to the Gulf States Marine Fisheries Commission, the Gulf of Mexico Fishery Management Council, and the National Oceanic and Atmospheric Administration. We are committed to improving regulatory compliance through cooperative efforts that enhance, protect, and conserve shared living marine resources and their supporting ecosystems throughout the Gulf of Mexico.*
