

Dr. Joseph Powers currently serves as a professor of stock assessment in the School of the Coast and Environment, Louisiana State University. He has over 30 years of experience in conducting population dynamics studies, scientific stock assessments, in communicating results to constituents and managers, and serving as a fisheries manager. Powers has served as Senior Stock Assessment Scientist of the Southeast Fisheries Science Center, Southeast Regional Administrator (acting), Deputy Science Director SEFSC and Miami Laboratory Director, SEFSC.

Dr. Powers has been the lead US scientist conducting stock assessments for Atlantic tuna and billfish species for ICCAT. Additionally, Dr. Powers served as the Chairman of the Scientific Committee of ICCAT (1998-2002). His research interests continue to be the modeling of robust sustainable management procedures, integrating ecosystem factors into stock assessments, risk analysis in decision making and the role of scientific investigations in fisheries management policy.
