

Rob Ruzicka is the Coral Reef Research Program Manager at the Fish and Wildlife Research Institute (FWRI)/Florida Fish & Wildlife Conservation Commission (FWC). He holds a B.A. in Biology from Hanover College (Hanover, IN), and an M.S. in Marine Biology from Georgia Southern University (Statesboro, GA). Mr. Ruzicka possesses over 15 years of experience conducting biological research and ecological monitoring on coral reef ecosystems in Florida and the Western Atlantic Ocean. He currently manages the Coral Reef Evaluation and Monitoring Program (CREMP) for FWRI/FWC. Prior to joining FWRI, Mr. Ruzicka was the Fishing and Diving Project Coordinator for the Florida Department of Environmental Protection's Coral Program in Miami. There he was responsible for implementing and overseeing over 20 scientific research projects related to impacts associated with fishing and diving activities on coral reefs. Mr. Ruzicka has also held positions with the U.S. Peace Corps, Mote Marine Laboratory, and Ecoquest Education Foundation. Over his career he has authored numerous scientific publications, including a 2008 status of reefs in southeast Florida, and CREMP annual reports for the Florida Keys and Dry Tortugas.
